

Region 25 RAVE – “A Different Way”

9:30am – Registration

10:00am – Energy – the Spark Plug of your Performance!

Flip the switch...discover how energy (internal and external) can make or break a performance!

11:00am – It’s All About the Vowel (well, mostly!)

The basic work unit of a cappella music is the *vowel*. We not only have to choose the same target vowel and turn diphthongs together, we also need to choose an open resonance to best support the unit sound.

12:00noon – Lunch

1:30pm – Membership & You...how can you *Ignite the Sound*?

How can you participate in the membership & recruitment process? We will discuss ways and ideas to show how you can be a part of this process, no matter how big or small the gesture or job. You can be a key member in this process of membership & recruitment.

2:30pm – SYNCH or SWIM

Learn what causes synch errors and explore techniques to create a unit delivery.

3:30pm – What a Character!

What is this characterization thing and how do you go about creating it in a song that’s two and a half minutes long?? It takes authors chapters and chapters to do it, how can we do it that quickly and what difference can it make in not only our visual presentation, but our other musical categories as well?

4:30pm – Q&A

Wrap up and questions
